

MAINTENANCE

Equipment rented includes full maintenance. You don't need a repair shop, spare parts, a mechanic or maintenance records.

Cutoff Saws

Gas cutoff saws work hard on the job! They tend to clog up and need frequent maintenance. Leave that to us! Avoid downtime on the job, call up and have a saw sent out to your site that you know will run!

Pipe Freeze Machines

Pipe freeze machines let you avoid the cost and inconvenience of a system shutdown and purge, but if your machine is in need of repair it doesn't help you. Leave repair of this sensitive equipment to us and rent a machine when pipe freezing is called for.

Gas Monitors

Gas Monitors need frequent calibration and replacement of sensors. Leave that to us! Rent a monitor from Total Tool and be sure that your employees will stay safe.

Roust-A-Bout

Roust-a-bouts can turn one man into a crew, but only if they are up and working. Lets be honest, checking for frayed or broken cable before each use just doesn't happen. Leave that to us! Rent your Roust-A-bout from us and reduce job time!
