

# QUALITY RENTAL TOOLS AND EQUIPMENT.

**WELL SERVICED. PRICED RIGHT.**

Large or small, Total Tool's Rental Department has the right tool for the job—from hand tools to generators to compressors and more! Our rental fleet is up-to-date, extensive, and backed by factory-trained service professionals. Whether the job is commercial, industrial or municipal, Total Tool has the equipment you need to get the job done.

There are several reasons why equipment rental is the best choice for your business:

- **MAINTENANCE**  
Equipment rented on a day-to-day basis includes full maintenance, relieving you of the need for repair shops, mechanics, spare parts inventory and maintenance records.
- **BREAKDOWN**  
Rental allows you to avoid the time and money lost due to breakdowns. At Total Tool, if rented equipment breaks down, we'll replace it for you at no cost.
- **WAREHOUSING**  
Warehouse facilities are seldom needed for rental equipment, making it possible for contractors to operate with less overhead.
- **MOBILITY**  
Availability and convenience have become strong arguments for rental. Bidding on jobs several hundred miles away based on renting equipment near the jobsite is ideal for contractors.
- **COST CONTROL**  
Better cost control is possible with rented equipment. Knowing the true cost of owned equipment is difficult. Rented equipment offers one accountable cost figure shown on the rental invoice.
- **DISPOSAL COSTS**  
Preparing for the resale, advertising and selling of obsolete equipment are non-factors when you rent.
- **OBSOLESCENCE**  
Equipment rental businesses provide the latest types and models of equipment, thus eliminating obsolescence.
- **MINIMUM EQUIPMENT FOR THE JOB**  
Equipment ownership can be expensive, especially when the equipment is idle. This problem can be minimized when ownership of basic equipment is combined, as needed, with rental.
- **PERSONAL PROPERTY TAXES AND LICENSES**  
There are no personal property taxes or license costs for rented equipment.
- **CONSERVATION OF CAPITAL**  
Rental conserves and frees capital for other potentially more profitable uses.
- **INCREASES BORROWING CAPACITY**  
Since rental equipment does not appear as a liability on a balance sheet, the normal bank credit is not disturbed. This can be important in securing construction bonds.

**RENTAL PACKAGES** Need more than one tool or machine? We're happy to customize a multi-unit rental package for your job. Whether it's plant shutdowns, turnaround or short term jobs, this may be a perfect option.
